I was meaning to ask. I think the question is proper. I am a Dogouth. Everyone knows of the Dogouth race. But, you seem to have some similiarities...

Not really the proudest purchase I made, ended up refunding it. Guess my curiosity wasn't the best here with this. The dialogue and situations I made it through in the game was kind of weird and unappealing. Get it if you want, but I wouldn't recommend it.. Good points about this game:

- epic soundtrack
- nice visuals, some genuinely creepy monsters
- mostly good humour with some fourth wall breaking and satire done well

Bad points:

- GAAAAH FIX THE SPELLING AND GRAMMAR
- very, very short in a way that feels unfinished
- the ending in particular was just... um... what? that's it, then? am I missing some true ending? ... the game is working properly, right?

things that were kinda meh:

- I liked the whole 'being unsure if they were cats, humans or weird hybrids' thing, also the hint that they were aliens, although it was never really expanded on - incidentally, why does it apply to the cats and not the dogs, and why are the dogs fully dogs but bipedal and more intelligent, whereas the cats are closer to anime catpeople?
- the random crude humour - it kinda amused me but felt a little randomly placed there, like some twelve year old said 'what's funny? oh yeah, saying the word \u2665\u2665\u2665\u2665\u2665.'
- it feels a little janky and occasionally forgets I have a controller but for RPGMaker games it isn't that bad

all in all, it's funny, has nice music, cats, tea, is cheap. a good way to spend five hours.. I played this game to completion. I can't really be sure why... Maybe curiosity? The dialogue is odd, and funny at times. The story follows pretty standard lines. The title of the game is appropriate. It's a pretty decent, functional old-school JRPG. Play it if you want.

It's not bad, but I wouldn't personally recommend it.. Really like this game. It has funny characters, and nice and easy gameplay. I recommend this game to those gamers who like to play a more relaxed game.

Edited to add: I have now finished the game, and it was very enjoyable, but the ending was very very abrupt. The least that could have been done was talking to the person in the room (won't give away who so as not to spoil it for others) instead of just cutting the game off after the last boss fight. That was very badly done.

Another thing: I cannot find this game by itself on Steam. It's not even in the list of games when I search under "Brewsterland". The game only comes up when I click on the info for the "Brewsterland JRPG Bundle". I am sure other gamers might like to have a go at this game, but if they can't see it, they won't know that it exists.. Good points about this game:

This is a short little, generic JRPG-like that is priced right, around \$1-2. It was good for an afternoon of distraction, and I managed to complete the game in about 4 hours of game time, maybe less.

There's not a whole lot to it - there are four classes, and conveniently, four character slots, though you aren't obligated to select one of each class. Skills max out around level 10, which you'll hit halfway through the game. There's a handful of weapons and limited equipment (I think I saw three unique vendors, whose inventory never updates.)

On the down side, there are some major spelling errors in the game text, and a strangely out-of-place inclusion of randomly sexualized items, which clash against the otherwise G-rated setting. Seriously, there's no in-game explanation for why certain consumables and gear need to draw inspiration from Chuck Tingle titles.

Anyway, if you consider \$2 or less worth three or more hours of entertainment, you could do worse.. Cute little RPG. Took about 3 hours from start to finish. Not a lot of grinding, not difficult to get the money for better equipment, and a decent story line with a few chuckles.. i like \u2665\u2665\u2665\u2665\u2665s. I hate to see a good game with only 2 user reviews. Anyone with even a casual interest in old school JRPGs should pick this one up. Everything works fine & some of the item names are...quite hysterical. :) Good story. If I had a minor gripe, I would have liked to have seen even MORE M-RATED content.

B+. direct in its play but a pointless, stupid 'story.' yet for being so cheap, it works. i like \u2665\u2665\u2665\u2665\u2665s.
